

## Wrexham Glyndwr Engineering Bursary 2018

### Background

- The Welsh Government has announced a change in funding for university entry beginning September 2018.
- The financial subsidy which has been offered for the past few years to Welsh and other non-UK EU students is being withdrawn.
- The tuition fee for September 2018 entry will be set at £9,000.
- This applies to all UK and EU students.
- This change is driven by a thrust to improve the sustainability of university funding arrangements is not related to Brexit.

### Engineering Bursary

- To support all students who wish to study with us starting September 2018 we have secured a bursary for all students studying full-time undergraduate Engineering programmes†.
- This bursary will provide **free accommodation for one academic year**. This has a value of £3,700 or more.

### Benefits

- The opportunity to gain an English language Bachelors degree.
- The option to enter for the final year only from a suitable qualifying award.
- Subsequent access to a one-year Masters programme.
- Access to the UK Student Loan arrangements to cover programme fees.
